15 Minute Science Experiment Take Home Kit: Lifting Ice With String

This experiment is geared toward families with kids ages 3 & up. Did you ever wonder why they use salt to de-ice roads? Did you know that snow more readily sticks to pavement treated with salt? Why would this be the case? In this activity you will use the same principles to pick up ice cubes with a string. Do the activity and see what a pinch of salt can do! To reserve a kit, please email attleborokids@sailsinc.org or call 508-222-7820. Available only while supplies last.
