

Clay Mandrakes!

Materials Provided:
Glass Jar for base
Terracotta Air Dry Clay
Green & Brown Paper

Step One- Gather your supplies

Step Two- Decide if you want to wrap the jar in paper, you will need tape or glue to make it stick. Fill the jar with dirt you find outside, this will be the base your mandrake will sit on.

Step Three- Shape your clay into a Mandrake. Use your fingers or a pencil to help shape the facial features.

Step Four- Put your shaped Mandrake into the jar (it's pot!)

Step Five- Draw, cut and add leaves!

For visual instructions please visit the APL's YouTube page. Email a picture of your creation to attleborokids@sailsinc.org...we'd love to see!
