

Dragon Feet

- 2 Dragon feet shape cut from craft foam
- White craft foam triangles (for claws)
- Scissors
- A pencil
- A glue gun & glue OR white glue
- A cup or something round to trace

Trace around the bottom of the cup where the dragon's foot would meet its leg and cut the circle out. Using a glue gun OR white glue, glue the white claws to the foot. Put the feet on around the ankles and have fun. (You might need to tape the foam foot to the child's actual feet so that they don't spin around.)
