

WINTER WREATH

An easy decoration
that can last all
winter!

Supplies:

--green paint --plastic fork --circle of cardboard
--glue --ribbon --buttons --paper plate

Put some green paint on a paper plate and dip the flat part of the fork in the paint. Try not to overload the paint. You want to be able to see the individual tines of the fork. Press the fork onto the cardboard, using the circle to guide you.

Continue “fork painting” until your wreath is full and even.
Leave the center of the circle empty.

Let the paint dry for a few hours

Tie the ribbon into a bow and decide how it will be placed on the wreath. It could go anywhere you like.
Glue in place.

Glue the buttons on the “greenery” of your wreath.
Let it dry for a while before hanging.
