Calming Glitter Jar

Materials Provided:
Empty plastic bottle & cover
2 oz glitter glue
Fine glitter

Needed from home:
Small bowl
Whisk
Measuring Cup
Hot water
Super Glue or Hot Glue
Food coloring (optional)
Funnel (optional)

1. Wash each bottle in hot, soapy water before using. Let dry.
2. Pour the glitter glue into the bowl.
3. Add hot water to the bowl. Use a whisk to mix the water and glue until the mix is no longer clumpy.
4. Add glitter to mixture, using the whisk to make sure that it's evenly distributed. Start with a small amount and then keep adding more glitter as needed.
5. Add one drop of food coloring in a color that complements the color of the glitter that you used. Mix well.
6. Add additional drops of food coloring until the mixture reaches your desired hue. It's fun to mix colors too!
7. Pour the mixture back into the measuring cup or use a funnel to transfer the mixture to the bottle.
8. Put the cover on securely, if you have super glue, ask an adult to glue to cap on.
