

March Take & Make Polar Bear Painting

Supplies Included:

Plastic fork
Blue card stock
White paint
Black, white & grey construction paper

Needed From You:

Scissors
Pencil
Table/Work space covering
White glue or Glue stick

1. Pour some white paint in the center of your blue card stock. You don't need a lot. The size of a quarter is a good starting point.
2. Take your fork – which is your “paint brush” and spread the paint ALL around to make the fur of their polar bear. You can move it anywhere and in any design/shape/angle that you like.
3. Once you are done creating the “fur” – set it aside.
4. Draw your ears, eyes and a nose for the polar bear & then cut them out
5. Once the paint is dry, glue all your pieces to the painted piece of paper.
