

# January 2023

## Take & Make : Sock Snowman

### SUPPLIES INCLUDED:

- ◆ White Sock
- ◆ Aquarium Rocks for Weighted Bottom
- ◆ Stuffing
- ◆ Twine
- ◆ Felt

### SUPPLIED BY YOU:

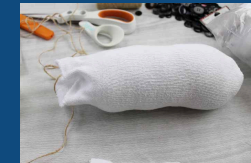

- ◆ Black Marker
- ◆ Scissors

1. Start by cutting the top off of your sock. This piece will become the hat later, so just set it aside for now.
2. Add the aquarium rocks to the bottom of your sock to weight it down. This will help your sock snowman stand up.
3. Add a bunch of stuffing to fill up the sock completely.
4. Tie off the top as well as a portion in the center with twine. This step makes the head and body portion of your snowman.
5. Use that top piece of the sock that you cut off earlier to add a hat to the snowman. Use a little bit of the twine to tie off the hat for a decorative touch.
6. using the felt, cut a scarf. Use your scissors on both ends to create some fringe. Then tie the scarf around the neck.
7. Add eyes & a nose with markers (or buttons)
8. You may need to adjust the stuffing and weighted portion with your hands until it sits well. It shouldn't take much time or effort. Once it's standing, however, it stays upright just perfectly!
