February 2023
Take & Make: Salt Painting

Supplies Included:
- Coarse Salt
- White Cardstock
- Watercolor Paint

1. Lightly draw the image you want to create with the pencil. Some ideas are snowflakes, snowmen or winter trees.
2. Use the glue to trace your drawing
3. Cover the glue with salt (use a lot of salt)
4. Use the paintbrush or dropper & water colors to paint the salt. Be gentle.
5. Let the painting dry

TIPS FOR SALT PAINTING:
--Use a highly concentrated solution of your liquid watercolors. Only add a small amount of water to your solution to keep the color vibrant.
--Dip your paintbrush gently into your liquid watercolors to get only a little bit of watercolor at a time. If you have too much water when you’re painting the water will spill over and get your paper very wet.
--You can paint after the glue dries or right away – it shouldn’t make a difference!

Supplies Provided From Home:
- While of Clear Glue
- Pencil
- Paintbrush or Dropper
