

Dinosaur Bones

Supplies:

Cotton Swabs
Print out of a dinosaur skull

Supplies From Home:

Scissors
Glue
Crayons or Markers (optional)

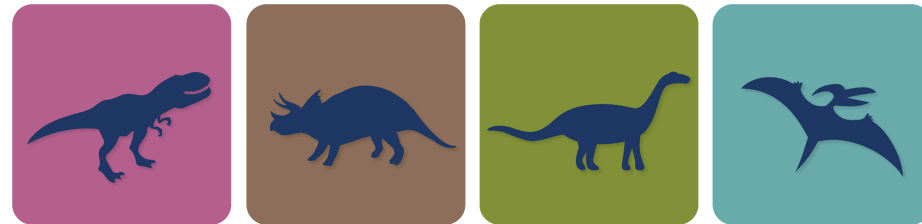

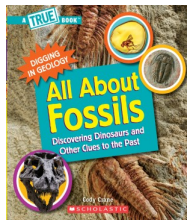

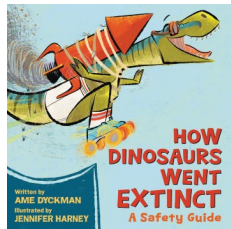

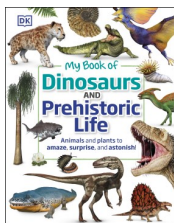

1. Cut out the dinosaur head & glue it to your paper (you could also create your own head!)

2. Use the cotton swabs to make the bones of your dinosaur. You can re-create a dinosaur that you have seen in a book or you can make-up a new dinosaur. You can cut or bend the cotton swabs to make different sized bones.

3. If you want to, use crayons or markers to create background for your dinosaur bones.

Looking for more dinosaurs? Try these books or ask a Children's Room staff member for more ideas!
