Large Bowl

1. Pour 1 ½ cups of pure baking soda with ¼ cup white hair conditioner in a large bowl.
2. Mix ingredients together until completely combined.

Tip: You can add more baking soda if you wish to make your “snow” less wet. You can easily multiply this recipe if you need to make a larger batch of snow.

Tip: You can put this snow in the freezer for a little while if you want it to be cold like real snow
