

CD Sun Catcher

Suncatchers crafted from old CDs are a fun and eco-friendly craft project! This DIY project transforms discarded materials into stunning art pieces that dance with light. The reflective surfaces of CDs bounce sunlight in vibrant patterns, creating a beautiful display.

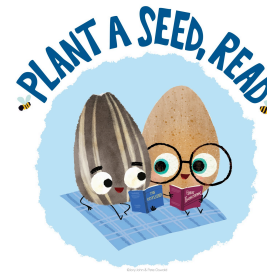

Materials Provided:

CD
Holographic Stickers
Twine

Materials From Home:

Scissors
Permanent Markers

Use the stickers and/or permanent markers (washable markers will not work on CDs), to create your CD Sun Catcher. When you are finished creating, tie the twine to the middle of the CD to hang it up.
